

Mexico City May Go Dry Within a Year

MEXICO CITY, Jan. 25—(Associated Press Mail)—The "wets" in Mexico are frankly alarmed. They say there is a real possibility that Mexico City, at least, may go "dry" before the end of the year and that if so, the next step would be to make the entire republic arid of alcoholic beverages.

President Obregon does not say that he is a prohibitionist but within the past few months he has given his unqualified support to certain legal measures which aim to cut down drinking and eventually to put intoxicants under the ban.

Saloons, clubs and cantinas have been put under more rigid restrictions and, only a few weeks ago, a presidential decree increased the federal revenue tax on alcoholic drinks 100 percent. There are many rumors that these taxes will be automatically increased until they become prohibitive.

Nationwide protest was heard several days ago when the newspapers said that President Obregon contemplated issuing a decree forbidding the planting and cultivation of the maguey plant which is the basic ingredient of the most popular native drink. The maguey, which is a species of cactus, must be replanted every seven years and a decree prohibiting its cultivation would mean its extermination and with it the elimination of tequila, mescal and pulque, drinks of undisturbed potency.

Planters of maguey rushed numerous petitions to President Obregon pointing out that the plant is a part of the agricultural wealth of the nation in that it produces a valuable fiber, sugar, a base for paper and a medicine that is said to be a specific for kidney disease. It was also said that its spines, treated by an inexpensive process, make cheap and excellent phonograph needles.

President Obregon has not yet issued the decree—but the planters are still worried and so are certain other persons.

The "wets" have held numerous meetings within the past few weeks to organize their campaign against prohibition.

ing in for a large share of the criticism for the "dry" wave, as he was a staunch "bone dry" advocate long before he left the state of Sonora to take a cabinet position. Secretary of the Treasury de la Huerta is also a prohibitionist.

Persian Government Forms Expedition to Put Down Rebellion

CONSTANTINOPLE, Jan. 10—(Associated Press Mail)—The Persian government has organized an expedition to put down the rebellion headed by Sinko the Kurdish brigand chief, who has several times menaced the city of Tabriz, according to advices from Teheran. The government troops have been augmented by Cossacks from Teheran and by contingents from Northern provinces.

Colonel Ludenberg, one of the Swedish officers now in charge of the Persian militia, has been placed in complete control of all the military operations against Sinko. The Swedish officers have succeeded the British who have withdrawn from any action with the Persian Rifles or in other similar organizations in Persia.

Riza Kahn, Persian minister of war and formerly a member of the Cossack military organization in Persia, who is now almost the dictator of the Persian cabinet, is determined to put an end to Sinko's uprising.

One of Sinko's most recent raids took place in October when part of his forces attacked the American Lutheran Mission at Sybulak when 500 gendarmes who surrendered were shot down with machine guns. Sinko's wild tribesmen then looted the town.

Australia Wants its Monopoly of Animals

SYDNEY, N. S. W., Jan. 11—(Associated Press Mail)—A long list of animals that can be exported from the commonwealth only under permit has been compiled by the federal government with an idea of making full use of Australia's monopoly of certain creatures.

Nature has given to Australia and the neighboring islands a complete "corner" on the monotremes or egg-laying mammals and virtually a complete monopoly on marsupials, except a few species in America. Australia also had a monopoly on the eucalyptus of the wattles but unrestricted export of seeds has destroyed this.

Persons interested in the project are urging a biological survey. It is said that opossum farming might be made profitable in Australia. There also is a project on foot to set aside 250 square miles at Cradle Mountain as a reserve and to combine a carefully controlled and studied exploitation of the fur-bearing native animals and others of commercial value, with protection from indiscriminate and unregulated destruction.

RUSSIAN RELIEF WORK
WASHINGTON, Feb. 16—(Associated Press)—Edgar Rickard, a member of the American Relief Administration, after a conference with Hoover, said he expected the relief work in the famine districts of Russia would end about September 14th at which time the expected proceeds of the Russian harvest would be available. He said 112,000 tons of American seed wheat were being sent to Russia.

Hypnotist is Charged With Misuse of Power To Defraud Subjects

BERLIN, Feb. 8—(Associated Press Mail)—German criminologists, psychologists, medical and legal experts will hold a "congress" over the case of Leopold Miccyslaw Kittay, a Calician, whose trial on charges of misuse of hypnotic powers was set to begin here today. They have been summoned for opinions on psychology, hypnotism, suggestion and mental responsibility of persons who commit crimes while hypnotized.

Kittay, who practiced hypnotism under the name of Lo Kittay, is alleged to have influenced his clients to sell or pawn their valuable and give him the money. He will also be held to answer charges of immorality for he is said to have had great influence over women, one of whom, the wife of a well-known merchant tried to sell her house and furnishings without her husband's knowledge and succeeded in raising a considerable sum which she gave the hypnotist.

He used part of the money in making a brief tour of German cities where he gave public exhibition of his power over the merchant's wife who, with a friend, accompanied him.

The complaint against Kittay cites as an example of his influence that he hypnotized a dancing girl while she was on the stage, compelling her to fall asleep and abandon the performance. This girl is said to have defected the hypnotist but could not resist his hypnotic power.

A number of husbands whose wives were addicted to drug habits appealed to Kittay for assistance and in some instances he is alleged to have put the women to sleep and while in this con-

dition suggested they sell or pawn their own valuables or the property of their husbands, proceeds of which transactions he pocketed. Kittay's defense will attempt to show the clients themselves were criminally inclined and committed the offenses without undue influence on the part of the hypnotist.

Death Rate of Babies Wide In Variation

LONDON, Jan. 14—A surprising disparity in the death of babies throughout the world is shown in the latest figures issued by the registrar-general.

During the third quarter of the year just ended, Christiania, the capital of Norway, was the healthiest city, reported the infantile death rate per 1000 being only 33, while Amsterdam, Holland, had a rate of 42, Stockholm, Sweden, 47 and Copenhagen, Denmark, 48.

Compared with these, London's rate of 93 appears high; but Wigan, an important industrial town in Lancashire, has a rate of 125 and Berlin 146.

No town in Europe has such a record as Bombay, India, where, according to official figures, 630 babies out of every 1,000 die before they reach the age of 12 months.
